FASTFAB
FASTEST LEAD TIME

FHC is proud to launch our **NEW FHC AR Series™ Premium Aluminum Railing Systems**, a much-needed advancement in the aluminum railing sector. We offer the industry a new railing solution constructed of heavy-duty engineered aluminum for a structurally robust system that is stronger and safer than current offerings on the market. The result is a versatile railing product, offering the utmost design flexibility with countless combinations of profiles, powder coated finishes, infill panel options, and attachment methods. Pair that with an unmatched manufacturing capacity and you have a railing system that is markedly better with a lead time that can't be beat.

FHC AR Series™ Premium Aluminum Railing Systems

X1 Series Premium Aluminum Railing System

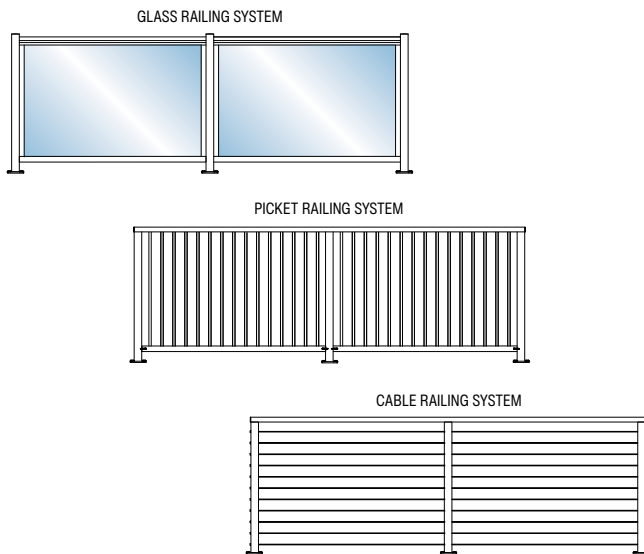

FHC's X1 Series Premium Aluminum Railing System stands out as the most adaptable within the product line. It is uniquely capable of satisfying the demands for both guard rail and handrail code specifications. This system offers compatibility with various infill options such as glass, cable, picket, cast, or custom waterjet cut infill designs.

X2 | X3 | X35 | X4 Series Premium Aluminum Railing Systems

FHC's X2 | X3 | X35 | X4 Series Premium Aluminum Railing Systems are professional-grade and versatile for both commercial and residential use. They are constructed from extruded aluminum framing members and can accommodate 1/4" to 1/2" tempered glass, 9/16" laminated tempered glass, 3/4" aluminum pickets, cast infills, and stainless steel cable.
