Offering Door Entrances That Can Adapt to Your Requirements

FHC is excited to introduce our newest "100% wide-open functioning" **Thermally Broken G50 Series Top-Hung Bi-Folding Glass Door System!** The **G50 Series** allows for wide, unobtrusive openings so views and the great outdoors can be enjoyed. In the closed position, the **G50 Series** provides a weather tight seal and resistance to the ever-changing conditions, while at the same time allowing natural light inside. There are several configuration options available to complement many architectural design styles. Our factory engineers designed the system to move smooth and effortless. The **G50 Series Thermally Broken Top-Hung Bi-Folding Glass Door System** comes with a two point locking system for ultimate security.
