Panic Handles

CSI DIVISION 08

SECTION

08 7100

FHC Steincraft® HP100 Series Panic Handles are designed to please architects, fabricators, and building owners alike. The Panic Handles are available in six popular architectural finishes with engraved push indicator areas, and showcases a precision bending process for smooth, uninterrupted handle transitions. The collection is available in ADA compliant keyed cylinder configurations, NFPA 101 compliant height configurations, and can be made to accommodate entrances up to 10 feet tall in accordance with NGA-GANA guidelines. Additionally, the **FHC Steincraft® Panic Handle** provides added safety with a new “anti-finger pinch” faceplate design.
