EXPERIENCE AND INNOVATION

PROFESSIONAL GRADE

aspire™
INSULATING GLASS ENTRANCE SYSTEMS

HERE'S WHY ARCHITECTS AND DESIGNERS SPECIFY ASPIRE

- » Award Winning U-Factors as Low as 0.37
- » Compatible With all 1" High-Solar and Thermal Efficient Glass Types
- » Designed for Use With Bird Safe Glass
- » NFRC Rated and California Title 24 Compliant
- » Next Level Thermal Efficiency Provided by Thermally Broken Door Rails and Vertical Door Stiles. Utilizes Polyamide Strut Thermal Barriers Between the Inside and Outside Aluminum Extrusion Members
- » Door Handle Hardware Connects Directly to the Glass, Producing a Heavy Glass Door Appearance. Enabled by Specialized Through Glass Hole Spacers That Create a Durable Seal Between the Insulating Glass Lites With a P.I.B. Primary Seal and Silicone Secondary Seal
- » Very Narrow Vertical Door Stiles Complete the Heavy Glass Door Look. Stiles Utilize Our Patent Pending Clamping Mechanism and Unitizing Gaskets, for Fast Installations and Long-Term Durability
- » Rugged Stainless-Steel Corner Joinery Will Maintain Door Integrity in High Traffic Applications
- » Aspire™ Door Rails Feature Our Unitizing Gasket and Clamping Force Control Mechanism that Protects the Insulating Glass Edge Seal
- » PAS (Pivot Alignment System) in Both Top and Bottom Door Rails Make Installation and Alignment Easy
- » Door System Can be Configured to Center or Offset Pivot for Compatibility with Any Storefront Entrance System
- » Integrated Air and Water Infiltration Management
- » Six Standard Architectural Finishes Plus Custom Powder-Coat
